IMPERIAL ANDERMANI NAVY AWARDS

Introduction:

On the following pages you will find a delineation of the Imperial Andermani Navy (IAN) award system and how it relates to its counterpart in the Star Empire of Manticore (SEM).

As you look through the document, you will probably immediately notice that the SEM awards do not appear in their correct order. This is deliberate, as they have been assigned based on the IAN award order and criteria.

Additionally, you will notice some doubling, and in one instance a tripling, of equivalencies. The IAN award in those instances should be granted if the recipient met any of the criteria for the equivalent SEM awards. Further, the IAN system does not differentiate with ribbons between officers and enlisted, the sole exception to this rule being No. 33 which is only available to be awarded to enlisted personnel. Rather, the level at which the award is given is the differentiation. This applies only to the following awards:

- Star of Gustav
- Order of Tischendorf
- Star of the Imperial Eagle
- Order of the Imperial Crown
- Star of Basaltberg

These awards are granted in the following manner and have corresponding neck stars, or chest stars, that are worn on the left middle chest, below the ribbon rack: **Please note that artwork for the stars is not yet available**

- Medal: E1 - E6
- Knight: E7 - O3
- Officer: O4 - O6
- Grand Officer: F1 - F6
- Grand Cross: F1 - F6

Should an individual advance in rank, then subsequent awards would be applied at the higher level. The awards do NOT automatically advance upon pay grade advancement, they only advance upon BOTH paygrade advancement AND a subsequent award. Only one star is worn per award.

Deliberate and calculated consideration has been applied in a concerted effort to keep the IAN award system as minimalistic as possible. This is keeping with the canon for the IAN and the real world Prussian system it is based upon. As currently constructed, were an individual to earn every single possible award, they would only need a 17 ribbon standard ribbon rack to display them.

The equivalencies have been designed to cover the widest range of commonly distributed awards, however, there are some awards that are awarded to the RMN that are not reflected on the IAN ribbon display. This is again a deliberate and calculated consideration.

That is not to say that IAN personnel may not earn those awards, but that it was not deemed necessary by the BuNine design team, nor the TRMN contributors, to include them on the uniform. With the exception of No. 34, those “foreign awards” can be displayed in Medusa, and in canon, would be coded to the RFID chip embedded in the individuals name badge.

Like all Honorverse navies, the IAN has a “Space Warfare Pin” - referred to as a “Space Warfare Clasp.” This clasp is available in Gold for Officers and Silver for Enlisted.

The IAN Manticoran Combat Action Medal equivalent, like their counterparts in the Grayson Space Navy, is a clasp as well. This clasp is available in Gold, Silver and Bronze, and the criteria for each level is detailed further in this document. Ribbons, Name Badge, Space Warfare Clasp and the Combat Action Clasp are all worn on the left of the uniform tunic. See figure 1.1.

The Wound Stripe and Marksmanship Ribbons are replaced in the IAN by badges, worn stacked on the middle right of the uniform tunic. The Marksmanship Badge to the top, the Wound Badge to the bottom. See figure 1.2.

Personnel would wear the highest earned Marksmanship Badge, as only one is authorized. For example: If an individual is a Rifle High Expert, but only a Pistol Sharpshooter, they would wear

IMPERIAL ANDERMANI NAVY AWARDS

the Marksmanship Badge in Gold, as that badge represents their highest achieved result. For illustrations of the Marksmanship Badges please see page 3.2 of this document.

In order to select the appropriate IAN award, Awarding Authorities should familiarize themselves with the SEM equivalence criteria - found in RMN 5-1 (Awards and Decorations for the Manticoran Uniformed and Civil Services) 2023 Publication.

We are very pleased to bring you this guide, and look forward to seeing these ribbons and badges finally being worn proudly by the IAN personnel!

Please do not hesitate to reach out with any questions.

In Service.
